Attention: Chief Dave Wright

**Re: Fire Training Report for 2010**

Dear Chief Wright:

In the last three years, Northumberland Training Committee has put on extra training that is not part of the regular training for the members of the Alnwick/Haldimand Fire & Rescue.

Some of the other training items are:

1. S103 Theory and Practical
2. Big Rig Heavy Rescue
3. Training Session & Learning Outcome & Preparing
4. TAPPC
5. Livestock Emergency Response
6. Advanced auto extrication
7. Rapid intervention Team & Self Rescue
8. Marine Unit Training

The Alnwick/Haldimand Fire & Rescue also does extra training in ice water rescue and water rescue.

The new recruits take the program that the Eastern Ontario Fire Academy in Norwood offers. This program runs from February to June on the weekends.

The training that is provided in house is done by the trainer/facilitator that we have on the department. We try to stay within the OFM curriculum and N.F.P.A. Standard.

If you have any further questions, please contact the undersigned.

Yours truly,

Allan Sheppard,  
District Fire Chief, Station #3  
Alnwick/Haldimand Fire & Rescue
